...FOREWORD...

N THIS CATALOG we show a large and varied assortment of luminaires suitable for practically every type of building. Many of the types illustrated are new and have never before been catalogued. Our fixtures are made from exclusive designs created by our expert engineers and designers, and many of them are covered by letters patent in the United States and foreign countries.

96 G-976 9x2½ 2.50 Outside: Green
96 G-977 10x3½ 3.00 Inside: White

FOREWORD...

For Hospitals, Schools and Commercial buildings we make glazed porcelain enameled fixtures of all kinds. Guth porcelain enameled units have a permanent high luster finish that will not check, peel or tarnish. It can be applied to sheet iron, sheet steel, sheet copper and cast iron in practically any color. An extra charge must be made for matching colors other than our standard unless a sufficient quantity of fixtures is ordered to absorb the additional cost of manufacture.

All fixtures are furnished complete, with the exception of electric lamps. Chandeliers and brackets are wired, but not assembled—arms and sockets are supplied with enough wire extending to allow for connection in body. Ampere wire is also furnished for stem of fixtures. It is optional with purchaser whether glassware illustrated is supplied with fixtures. If glassware shown is not desired, the full list price, as given on page 96, may be deducted.

Note: Brascolite, E-Lite, Magic Lite, Aglite and Noshadowlite are patented. Patents are pending on Magic-Light, Guth-Reflector Flange and Station Lite. This catalog supersedes all previous catalogs and prices. Prices shown herein are subject to change without notice.

The EDWIN F. GUTH COMPANY
DESIGNERS - ENGINEERS - MANUFACTURERS
ST. LOUIS, U.S.A.

Copyright 1928
We design and manufacture plain and ornamental bronze tablets and signs of exceptional quality. Estimates and designs gladly furnished.

**Method of Installing Aglite Ceiling and Bracket Type**

1. **Bracket (No. 1):** Attach to any standard outlet box by the usual method. The bracket can be painted or left as galvanized, which is recommended. The metal parts are securely fastened to the outlet box. The bracket is then attached to the outlet box with screws. The bracket is designed to be used with a switch or pull-chain receptacle.

2. **Ceiling Tag:** The ceiling tag is attached to the outlet box and is designed to hold the aglite. The aglite is then placed over the ceiling tag and is held in place with a screw or bolt. The aglite is then painted or left as galvanized, as desired.

3. **Bracket and Ceiling Tag:** The bracket and ceiling tag are designed to be used together. The aglite is placed over the ceiling tag and is held in place with a screw or bolt. The bracket is then attached to the outlet box with screws. The bracket is designed to be used with a switch or pull-chain receptacle.

### Noshadolite

This efficient unit was designed for use in conjunction with other Noshadolite apparatus. In addition, it is the principal source of illumination of the entire room, including ceiling and walls. The unit is equipped with one or two Nocturnal Diffusion Lenses, which diffuse the light to give a pleasing and healthy illumination. The lights are included in the price of the unit.

### Noshadolite Center

The Noshadolite Center is a light fixture designed to provide general illumination for a room. It includes a lamp with a frosted glass shade and a switch for controlling the light. The fixture is suitable for use in bedrooms, living rooms, and other areas where general lighting is required.

### Additional Information

- **Diameter:** 12" or 10"
- **Height:** 6" or 4"
- **Plate Finish:** Brass or Steel

### Specifications

- **Lighting:** 100-150 watts
- **Switch:** Wire
- **Finish:** Frosted Glass
- **Size:** Lighting fixture + switch

---

**Note:** When ordering, specify finish of fixture desired.

DAYWAY BOULEVARD LANTERN
The most efficient and economical street lighting unit. Contains features of design with regard for both safety and economy. New design with adjustable height, for economy. Low bulk cost with economical light fixture for economy. Entirely weatherproof, it is suitable for both indoor and outdoor places of business. DAYWAY BOULEVARD LANTERN consists of a large triple-extended lamp, with lamp shade that affords by specially designed reflector, to diffuse the light. When the lamp is off, the unit is covered with a weatherproof cover that will prevent the lamp from getting dirty or dusty. The Weatherproof Cover is designed to allow the lamp to be cleaned without removing the lamp from the unit. The Weatherproof Cover is an integral part of the unit, and can be removed or replaced without affecting the overall appearance of the unit.

**Chain Hangers**

All standard cased wire guards are convertible to chain hangers. A complete set may be secured on request.

These hangers are packed in unit cartons, including necessary parts for manufacture, and are not hanged in standard boxes to catch the fixture in case of breakage.
